On July 30, 2014, the Company sold all of its shares of Southern Legacy in an open-market transaction conducted through the TSX Venture Exchange, for net proceeds of approximately \$995,000.

- Cash used in operating activities in the six months ended June 30, 2014 was \$2,723,000 (\$4,246,000 – six months ended June 30, 2013), principally to fund the Company's loss for the period of \$2,727,000 (\$6,253,000 – six months ended June 30, 2013) which was offset by non-cash charges including depreciation of \$86,000 (\$163,000 – six months ended June 30, 2013), the impairment loss on the investment in Southern Legacy of \$301,000 (\$1,329,000 – six months ended June 30, 2013) and share-based compensation of \$122,000 (\$329,000 – six months ended June 30, 2013), as well as a net decrease of \$501,000 in non-cash working capital (increase of \$81,000 – six months ended June 30, 2013).

Together with cash on hand of approximately \$1,000,000, management believes that total cash and cash equivalents on hand as at August 7, 2014 of approximately \$3,600,000 will be sufficient to fund the Company's planned head office and Peru exploration activities through 2015.

Management continues to evaluate additional capital financing alternatives which are available to fund, if necessary, the estimated US\$2,500,000 of capital expenditures needed to put the Invicta Gold Project into production by March 2015. If required, the Company can adjust its discretionary expenditures in the areas of administration and exploration to further preserve cash.
